Shariq Khan

Summary

Shariq Khan is a dedicated backend developer with a strong foundation in JavaScript, TypeScript, and various backend frameworks including Express.js, NestJS, and Django. He holds a B.Tech in Computer Science and has significant experience in developing and managing healthcare platforms and other projects

Projects

05/2023 – 02/2024
DMW, *JavaScript, TypeScript, NestJS, Postman, Swagger, PostgreSQL*, This healthcare platform facilitates online appointment scheduling and doctor selection, empowering users to book appointments based on provider availability. It integrates a calendar for time slot display and streamlines hospital operations with comprehensive management features.

07/2023 – Present
InstaFusion self Project, *JavaScript, TypeScript, NestJS, Postman, Swagger, PostgreSQL*, This Instagram-inspired app allows users to send and accept follow requests. Notifications are sent via Google Cloud Messaging (GCM) when a follow request is sent and accepted.

01/2024 – Present
OTT Platform self Project, *JavaScript, TypeScript, NodeJs, ExpressJs, Swagger, PostgreSQL*, Implemented a robust authentication system for the OTT platform, ensuring secure access and user management. Developed backend services for user registration, login, and authentication, integrating industry-standard encryption for data security.

Experience

March 2023 – Present
Back End Developer, *Sofyrous Technology*
Designing and developing a "HealthCare" platform, working on the Back End to develop REST APIs for features like scheduling online appointments and selecting preferred doctors. It empowers users to schedule appointments with their chosen healthcare providers based on availability, integrating a calendar feature to display available time slots.

Education

Graduated: May 2021 — **B Tech in Computer Science**, *SSld Vardhney Engineering College*, Aligarh

May 2016 — **XII - Mathematics/Science**, *Janta Inter College*, Jarali

Aug 2014 — **X - All Subjects**, *Modern Ideal Public School*, Aligarh

Certifications

JavaScript — Certification by TestDome

Internship — Certification by Sofyrous Technology

Low Level System For Payment App — Certification by Scalar Academy

Technical Skills

ReactJS, NodeJS, MongoDB, ExpressJS, MERN, WebSocket, Jest, Python, Git, JavaScript, NestJS, Excel, Web3
